PEARL

PROTOCOL

- **Mix the mask powder with purified water in a clean Hyperboost® mixing bowl**
- **Ratio – 2.5 square scoops of powder : 50mls (2 cone scoops) of de-ionized water**
(Use the Hyperboost® Jelly Mask Scoop – available from the Lipology® online shop)
- **Mix vigorously until the mixture is particle-free**
- **Apply evenly to the treatment area**
- **Leave to set for 15-20 minutes then peel off gently**
- **Wipe away any residue**

De-ionized water is water that has been mechanically filtered or processed to remove impurities and make it suitable for use

Sometimes known as distilled water, it is the most common form of purified water.

It is readily available from garages, auto-supplies or online

CONTRA-INDICATIONS & PRECAUTIONS

No patch test is required however, a full medical history & consent form must be completed prior to treatment

DO NOT USE:

- If client is allergic to any of the ingredients**
- Pregnant or breast-feeding women**
- On open wounds or broken skin including herpes (cold sores)**

If discomfort or irritation occurs, remove the mask immediately & wash the area thoroughly with tepid water

NB. If in doubt about the suitability of Hyperboost® Jelly Masks for your client refer to their GP or health care professional for written permission to proceed
